In the United States, most small schools for children under age 5 are funded only by the tuition that is charged to families.

Global Roots Play School is committed to being affordable to all families so we provide scholarships with a sliding scale to all families who need them. To do this, Ithaca Welcomes Refugees and Global Roots raises funds through public fundraisers, grants from foundations, and donations from people in the Ithaca community.

Your help in determining a fair tuition rate for your family to pay is greatly appreciated.
